

ACME APPOINTS CHEMAXIA AS DISTRIBUTOR OF SURFADOL ADDITIVES FOR THE ITALIAN MARKET

Chongqing ACME Tech. Co., Ltd. (ACME), the acetylenic diols additives manufacturer located in Chongqing, southwestern China, is happy to announce the cooperation with the famous Italian specialty chemicals distributor Chemaxia S.r.L. (Chemaxia). ACME has appointed Chemaxia as its distributor for the Italian market for its REACH-registered SURFADOL additives, effective from May 1st, 2019.

The SURFADOL additives with multi-functions have been approved and used by global leading manufacturers of waterborne paints, coatings, printing inks and adhesives, thanks to their performance benefits such as dynamic surface tension reduction, foam control, low dosage and easy handling.

Founded in 2006, ACME has its own plant with area of 14,000 square meters and high-purity TMDD production capacity of 1,400 metric tons/year.

“ACME will further strengthen its market presence in Europe after working with Chemaxial S.r. L. We always expect end-users to benefit from our high-quality additives as well as local stock and timely technical support from our global distributors,” according to Mr. Alex Jiang, Sales Director at ACME.

Franco Franzetti, CEO of Chemaxia believes that the SURFADOL product line is a good complimentary to the existing product portfolio.
